13:06:17 From Kwarner : Ken warner, City of West Linn

13:06:59 From Rich Rosenthal : Medford has a handful of restrooms open -- ones that have soap dispensers. Most of ours don't have soap dispensers.

13:07:08 From rios-camposj : Jairo Rios-Campos, PlayEast Cities of Fairview and Wood Village

13:07:47 From Susan Muir : McMinnville has several park restrooms open as well - the ones that can meet the governor's order. We are also bringing in porta potties where they don't have handwashing facilities.

13:08:16 From Rich Rosenthal : Hey Scott Archer -- What percentage of your park restrooms have soap dispensers?

13:08:47 From James Dunn : restrooms closed in Gresham

13:09:34 From Scott Baker : Northern Wasco Parks and Rec has our restrooms open, at the request of our local Health District.

13:10:00 From Susan Bethers--OPRD : Yes, OPRD has also experienced theft of TP/ sanitizer/soap. Seemed to be more prominent at remote locations.

13:11:17 From Kwarner : If you bring in porta potties are you having them serviced daily to ensure they have TP and sanitizer?

13:11:56 From Rich Rosenthal : Medford experiencing regular theft of park restroom toilet paper. Nearly a "clean wipe" in every park restroom on a daily basis.

13:12:39 From Ross Hoover : City of Seattle: These are the questions we are asking ourselves when making any decisions that will impact our park users.

- o Who will be impacted (positive equity impact)?
- o Who will be unintentionally harmed or will experience disparities (negative equity impact)?
- o How do you plan to mitigate unintentional harm and/or close disparity gap and when will this plan begin implementation stages (thinking about any immediate actions and recovery phase(s))?

13:17:54 From Rich Rosenthal : Most Medford FT staff working from home using City VPN system. Park and facilities maintenance on a skeleton crew only doing basic maintenance: daily restroom cleaning, daily trash collection and mowing once-per-week. Staff hours reduced in order to limit employee exposure. However, City is still paying full hours.

13:17:59 From James Dunn : City of Gresham- we are doing those same things, crew split, separated ops and City hall

13:19:13 From Kim Lyddane : Albany Parks & Rec has closed our dog park.

13:19:33 From Janine Belleque : If anyone is closing boating facilities (motorized and non-motorized access) we are requesting that you coordinate with County Marine Patrol or OSP if the facility is gated or barricade installed so the officers can have emergency access if necessary. Coordination on river access is also important in consideration of take out locations, rapids, hazards etc.

13:20:14 From Susan Muir : In Mac, our one dog park is still open but we are watching the behaviors closely.

13:20:15 From Kwarner : We closed a couple of smaller lots near courts, skateparks etc.

13:21:02 From James Dunn : closing Playgrounds, dog parks, other amenities

13:21:40 From Rich Rosenthal : Our challenge: People use and love their parks and trails! We don't have a way to keep people out or to close outdoor areas.

13:21:46 From SArcher : NCPRD - dog park/s closed. Parking lots open. All restrooms, playgrounds, sport courts and sport fields closed.

13:22:25 From Kim Lyddane : Albany Parks & Rec has three park locations for grab and go

13:22:40 From tina.osterink : Are agencies posting signage to have trail runners alert walkers on narrow trails?

13:24:43 From Susan Bethers--OPRD : OPRD closed all campgrounds and day use areas so the properties are technically closed. We know folks will still walk through our parks and we aren't taking a strong enforcement stance, focusing on education and reminder people of social distancing.

13:30:51 From Amanda Parsons : During these conversations, if anyone has any resources, webpages, links, or FILES you want to share, you can post those in this chat box.

13:31:19 From Amanda Parsons : You can also add anything to the ORPA Resource Library by going here:

13:31:20 From Amanda Parsons : <https://drive.google.com/open?id=1KKLDwyu8bUo102fe-OtgepcRAYoaVn19>

13:31:21 From Kandi Ho : NCPRD is providing Meals on Wheels.

13:35:43 From James Dunn : we are continuing work at Kirk Park. The executive order does not prevent construction work from continuing as long as contractor obeys the guidelines set forth. As an example, contractor has limited our crew size, are not carpooling, are strictly following 6â€™™ distancing guidelines and will not congregate for meetings or lunch.

13:39:30 From Lonny Flora : I was looking to confirm and missed jumping in to inform that the OPRD Local Government Grant Program Deadline for Large Grant Applications has been moved to April 10. Small Grant deadline is May 1 and planning grants is May 15.

13:42:25 From Amanda Parsons : Lonny - Scott Baker said that there were no expected changes in deadlines for LGGP.

13:44:10 From Scott Baker : Hi Lonny and Amanda- I was speaking only for Land and Water Conservation Fund, not LGGP.

13:44:16 From Michael Klein : If you can, please send examples of your signage to Amanda or me.

13:47:38 From Susan Bethers--OPRD : Signage and rangers will educate. A heavier hand or law enforcement is last resort.

13:47:42 From jesseu : Has anyone closed trails that have limited shoulders or narrow paths?

13:48:19 From tina.osterink : Especially signage for runners

13:49:28 From Scott Baker : We haven't produced our own exercise videos, but have shared links to videos by others.

13:50:07 From Rich Rosenthal : Facebook program - #chalkaboutmedford

13:50:20 From KLSLawrence : my company is doing in home soccer videos

13:50:23 From James Dunn : thank you all, I have another meeting to get to

13:51:06 From Kim Lyddane : We started a virtual talent show. Folks are sending their videos to us and we are starting to salt and pepper them out on social media. Cute kids and animal videos are going a long way these days.

13:51:40 From jesseu : Photo contest

13:51:46 From Jason : Kim wins...

13:51:48 From Rich Rosenthal : Medford considering offering a drive-in movie at a city park parking lot. People would be required to stay in their vehicles.

13:51:58 From Susan Muir : When we issue refunds of cancelled programs, we are asking people if they want to donate their refund to a low incomes scholarship fund so that we can get everyone back into our programs. Getting good response on that.

13:52:16 From Lonny Flora : This came from LERN and is a great list: The City of Watsonville has this inspiring

page.
